EDUCATION

National Sun Yat-sen University, *B.S. in Electrical Engineering* | Expected June 2026

- **GPA:** 3.99/4.30 | **Rank:** 28/138 (Top 20%) | **Awards/Selection:** Excellent Student Award (Top 5%); **Fulbright EMI Waiver Program** (Selected)
 - **Key Coursework (A+):** Control Systems, Introduction to Robotics, Computer Programming
-

RESEARCH & PROJECT EXPERIENCE

Real-time Tremor Identification System via EMG & Phase-Locked Loop (PLL) | *Undergraduate Researcher*

- Designing a CMOS charge-pump PLL in HSPICE (UMC 0.18 μ m), guided/validated by Python behavioral modeling for low-frequency (3–10 Hz) tremor tracking in noisy EMG.

Humanoid Logistics Robot | *Course: Introduction to Robotics (1st Place Award)*

- Won **1st Place** by building a Python-controlled humanoid robot for bipedal locomotion and object transport (3-motor underactuated design).
-

LEADERSHIP & SERVICE

President, National Sun Yat-sen University Jogging Club

- Grew membership **155%** and social reach **260%** by leading events and short-form video content.

Volunteer Tutor, Kaohsiung Red Cross Children's Home

- Provided weekly 1-on-1 tutoring in math and science at Kaohsiung Red Cross Children's Home.
-

SKILLS

- **Tools:** Python (NumPy/SciPy), C/C++, HSPICE, MATLAB, Cadence Virtuoso.
- **Languages:** English (IELTS 7.0, TOEIC 940), Mandarin (Native).
